## TECHNICAL SKILLS

**Languages:** C++, JavaScript, TypeScript (Basic), HTML/CSS  
**Frameworks:** React.js, Node.js, Express.js, Redux, Material-UI, Tailwind CSS  
**Developer Tools:** Git, Visual Studio Code, Postman, **SEO Tools**  
**Database:** MongoDB, Firebase, Cloudinary, PostgreSQL (Basic)

## EXPERIENCE

- Full Stack Developer** Jan 2025 – Present  
*Star Marketing* Remote
  - Built and delivered 9+ production-grade web applications using modern technologies, with a strong focus on SEO, performance, responsive UI, and end-to-end ownership—consistently achieving 100% client satisfaction.
  - Implemented CI/CD workflows using GitHub Actions and deployed projects seamlessly to platforms such as Vercel, Render, and cPanel, ensuring smooth and zero-downtime production releases.
  - Collaborated closely with clients, delivered projects on schedule, and efficiently incorporated feedback to ensure high-quality, cross-platform user experiences.
- Software Development Engineer Intern** Sep 2023 – Oct 2023  
*Codefeast* Remote
  - Integrated a secure payment system using Instamojo by collaborating with senior developers, ensuring smooth frontend-backend communication and enhancing transactional reliability.
  - Developed an internal admin dashboard for course management and built 20+ reusable React components, improving development speed and maintainability.
- Full Stack Developer Intern** Jan 2024 – Jul 2024  
*Future Finders (MERN Stack Training Certificate)* Remote
  - Built full-stack web apps using the **MERN** stack with secure authentication, REST APIs, and efficient MongoDB data handling.
  - Enhanced UI/UX through responsive React components, SCSS styling, and feedback-driven design improvements.

## PROJECTS

- Inter National Academy of Design** [GitHub](#) [Live Project](#)
  - Developed a full-stack college management system with a custom admin dashboard to manage courses, students, staff, and certificates—making over **50% of the content dynamically editable** by the client.
  - Built a certificate and marksheet generator with **on-demand PDF rendering**, allowing clients to preview, print, or export without local storage; optimized for performance and real-time updates.
  - Implemented **Cloudinary**-based image compression, crop tool, and drag-and-drop UI for staff and alumni customization—ensuring optimized assets and enhanced UX across all devices.
- Star Marketing (Digital Agency Platform)** [GitHub](#) [Live Project](#)
  - Engineered a fully responsive marketing website with reusable React components, achieving **100% Lighthouse SEO score**, fast load times, and optimized code following DRY principles and best SEO practices.
  - Developed a dynamic admin panel using **Tailwind CSS** with dark mode, enabling real-time content management of services, projects, images, and contact data without code intervention.
  - Built an advanced invoice system with a custom MongoDB schema to handle product-wise billing, dynamic PDF generation, and one-click email sharing—enabling fast and accurate invoice creation and reporting.
- Streamer** [GitHub](#) [Live Project](#)
  - Built a full-stack movie streaming and admin dashboard platform using **MERN, Redux Toolkit, Firebase**, and **MUI**; managed 1,000+ entries with real-time data, role-based access (RBAC), and dynamic chart visualizations.
  - Implemented subscription billing with **Stripe**, skeleton loaders to improve perceived load times by 30%, and deployed via CI/CD pipelines to **Vercel** and **Render** with zero-downtime updates.

## EDUCATION

**Bahra University** Solan, H.P, India  
*BCA (Bachelor of Computer Applications)* **CGPA: 8.27/10** Aug 2021 – Jun 2024
